Arizona Public Notice An Open Letter to Governor Hobbs

April 19, 2024

Governor Katie Hobbs

1700 Washington Street, 6th Floor

Phoenix, Arizona 85007-2834

Governor Hobbs,

We, the People on Arizona, read what happened to the Texas National Guard several weeks ago, how the guardsmen were rushed and beaten by a crowd of out-of-control would-be immigrants, illegal aliens, and newcomers.

We read how our fellow Texas Guardsmen were standing there with rifles in their hands and no bullets to defend themselves.

We read how a "Federal" Judge pardoned all these rioters and just let them go, after they invaded our country and assaulted our guardsmen.

The same thing can happen on our Arizona border. The guardsmen, Governor, are ours, not yours. Ours! Paid with State Trust money.

This shameful display of complete government ineptitude and dereliction is embarrassing, but it is also a travesty of justice that we will not soon forget.

You have an Arizona Assembly. Not a wannabe State Assembly "representing" a State Trust, but an actual Assembly of qualified, declared, recorded, and published Arizonians who have the provenance and standing to conduct an American Common Law State Court and Arizona State Citizens competent as the Principals owed every jot of The Constitution of the United States of America.

If what happened in Texas were to happen here in Arizona, what in the name of God would you do? Would you take such invaders to a political hack who is working as a Hired Jurist for a

British Crown foreign corporation so he could set them free? He has no power here. He has no jurisdiction related to this kind of issue. He doesn't even have an Oath of Office and he probably didn't even register as a foreign agent with the Secretary of State as prescribed by your corporate law. He has no more jurisdiction over illegal aliens than the moon is made of green cheese, but we, the Arizona Assembly, do.

Have you forgotten who you are, who you are responsible to, who you answer to, who you work for, who you are supposed to take an oath of office to, and have you registered with the Secretary of State as a foreign agent?

You owe it to us, the Federation of States, and to the People of Arizona to: (1) Arm our guardsmen; you may not be able to give them permission to use deadly force in their own defense, **but we do**, and we count, because those are our National Guardsmen and we hold superior concurrent General Jurisdiction, and (2) Bring things like this that impact the health and welfare of the living people to the lawful Court of the living people.

Don't argue about how many angels on the head of a pin in Municipal Court, and don't waste any time playing Toady to a British Territorial Suit whose only jurisdiction amounts to issues in Admiralty and contract law.

Forget about their corporate contract signed by George W. Bush, the North American Union Treaty, agreeing to open and erase their borders.

Your State-of-State Corporation called the State of Arizona, Inc., as a legal fiction, has no physical borders in Arizona or anywhere else outside the District of Columbia.

We, the Arizona Assembly, have physical borders in Arizona, and you have a contract with us called The Constitution of the United States of America a British Territorial Subcontractor and Incorporated Entity, (but an Entity and Professed Successor nonetheless) that requires you, as an Officer of the American Government, Inc., to close our physical borders tighter than a virgin's thighs on Prom night.

For God's sake, woman, wake up! Close the Border! Stop the invasion!

It absolutely does not matter what You, Joe Biden or any "Federal" Judge without an Oath of Office says about it. What matters is your contract with the People of Arizona who are present here and now and demanding your good faith service.

We have come home, the Americans, who were mischaracterized, denigrated to the level of "Humans" and then human trafficked out to sea in Breach of Trust and in violation of your service contracts. Yes, we came home.

And now we are here, no longer lost at sea, no longer absent, presumed dead -- no, Governor Hobbs, we are here, present and accounted for.

We have all the authority we need and we can give you all the authority you need, to kick every Municipal Government Employee back to where they belong, in the District of Columbia, including Joe Biden. So, close the border!

We can arrest and put any illegal aliens in jail where they belong and transport them back to their countries of origin, and charge back every dime that their presence has cost us, plus damages, to the Foreign Principals responsible for this mess.

We, on our Federation level, can order the arrest and questioning of George W. Bush and ask his exact understanding and intent when he signed the so-called North American Union Treaty -- which can only be a "Sea Treaty" having nothing to do with our land and soil -- and if he gives the wrong answer, we have every right and authority on God's green earth to hang him in the closest public square for Treason, Breach of Trust, violation of his Service Contract, and a whole lot more.

That's the Public Law. The Law of the Land. You may have heard about it. Your foreign-taught lawyers, members of the British Crown Corporation called the BAR Association, may even have a glimmer. We suggest you dust off a copy of the Law of the Land. There's probably a copy sitting in your office.

You know why it's called The Law of the Land? Because it's the Rule Book for you British Territorial Sailors coming onto our soil to provide us with "essential government services." It's not called the "Law of the Land" from our perspective, Governor. It's called that from the perspective of British Territorials coming ashore.

Now, if your British Crown Corporation now operating deceitfully as "the American Government, Inc." is too timid to do its job, we can hire someone else or do the work ourselves. You *Federales* can all quit and go home now so far as we are concerned.

We never appointed any of you to act as our Custodians or even as the Executors of our presumed-to-exist Foreign Estates, but we are here to tell you now, that your "performance" and the performance owed to us by all the Governors in Arizona, New Mexico, Texas, Florida, California, and any other bordering state where illegals can cross, is distinctly lacking.

You're all just a gross embarrassment to us; you seem to not have the willingness to do your job, Governor Hobbs. You have to get past the ignorance that keeps your hands tied.

Using our Guardsmen as potential laughing stocks and punching bags, giving them fancy guns to use as super-expensive billy clubs, and taking illegal alien criminals to the wrong Court is just not acceptable.

They aren't Municipal citizens and we're not "rebels" or "insurrectionists." We're your long-lost Employers and we are pissed!

Get a clue, Governor Hobbs, and tell your jackdaw attorneys to get one, too.

That "Federal Judge" in Texas, Just as any federal judge in Arizona, has no more jurisdiction over illegal aliens than the Man in the Moon.

We are not deceived nor are we amused.

It's time for the British Crown to walk the talk or walk the gangplank. One of the two. Give our greetings to the Lord Mayor of the Inner City of London and to the Pope.

**Notice to Agents is Notice to Principals;
Notice to Principals is Notice to Agents.**
