

## **Arizona Public Law**

### **Close the Border with Mexico to Unlawful Immigration**

We, The Arizona Assembly, a member of The United States of America unincorporated, with lawful superior concurrent general jurisdictions over land, soil, sea and air in Arizona, hereby issue Public Notice to all people that it is declared and recorded by roll call vote, Arizona Public Law 1002.

Arizona Public Law 1002 declares that all corporations and entities operating on our land and soil are liable for any and all activities, and the consequences of those activities, that result in any physical, physiological, psychological, spiritual damage or biochemical injury to the living people and the land, water, animals, insects, and natural environment of Arizona. No corporations, entities or their principals will be immune to prosecution for said harmful activities or results of those activities beginning May 25th, 2024.

This is concurrent with Public Laws A1010121, A1010224 and A1010124 passed by all 50 states of The United States of America, unincorporated, These public laws apply to all Americans in every state.

## **Closing the Border between Mexico and Arizona and surrounding States of the Union**

This public notice is to immediately and entirely close our border with Mexico, California, Nevada, Utah, Colorado and New Mexico to illegal and unlawful immigration and transportation, finish building the wall and guard it for the safety of the living people on Arizona and all other States of the Union.

It shall be unlawful for any person, company, corporation, NGO, agency, border patrol, military agency, or other entity to allow and/or transport undocumented immigrants into Arizona, by any means such as on foot, vehicle, airplane, or any other means.

Those in violation shall be either fined or imprisoned according to our fee schedule.

"The Constitution for the united States of America (unincorporated) and the Constitutions of the Territorial and Municipal corporation subcontractors require all three to secure and close our Southern Border no matter what the corporation policies say and no matter what George W Bush signed (the North American Union Treaty) without authority to do so.

The Constitution for the united States of America (unincorporated) and the Constitutions of the Territorial and Municipal corporation are contracts and contracts outrank treaties, even if treaties are valid and flawless and in the right jurisdiction – which the North American Union Treaty is not. Both treaties and contracts outrank mere corporate "policy."

We reserve the right and obligation to arrest and put illegal aliens in jail where they belong and transport them back to their countries of origin, and charge back every dime that their presence has cost us, plus damages, to the foreign Principals responsible.
