- Arizona Public Law #1003 sent to all of the above first class with no tracking
- American State National educational binder with ALL necessary information to understand the Great Fraud and related crime you are perpetuating was sent to Adrian Fontes on September 23rd of 2024 and received by him on September 25th of 2024 by USPS Tracking #9505516917914267141737.
- Final Judgment and Civil Orders of April 11th of 2014 (<https://www.annavonreitz.com/finaljudgmentwithaddendums.pdf>) and Default Judgment against your parent corporations the United States of America, Inc. and the UNITED STATES, INC. were received by these entities in April of 2014 and have been published publicly for 11 years. Per the principals and agents doctrine you have had knowledge of each fact in this document for 11 years.

As Notice to Principals is Notice to Agents and Notice to Agents is Notice to Principals, you have all had ample time with the aforementioned educational materials to understand the truth of the situation we are all in and act lawfully, but you have failed to do so. We have made MANY attempts to work with you and you have failed to acknowledge our efforts to educate you via Presentments both as an Assembly and individually. Your silence is dishonor and acquiescence in commerce, and we are accelerating service in light of your dishonoring our Presentments per UCC 1-309.

You have received all necessary information to understand the Great Fraud and related crime that you are perpetuating and you have failed to acknowledge it, indicating that you are either incompetent or criminal. The Arizona Assembly(c), the ONLY rightful and lawful government of the People of Arizona has had enough of your criminality and incompetence as our employee. We are resorting to due process as remedy for your egregious crimes against us, as you continue to reject our opportunities to meet and discuss the situation, and remain in honor like intelligent adults.

Facing the chaos at the end of the American Civil "War," President Lincoln invoked The Lieber Code (General Orders 100) to create a state of emergency to justify overreaches of Federal employees against the people of this country. This state of emergency has not existed for 160 years, and your overreach must stop. The U.S. Supreme Court decided a landmark case in 1866 which still stands in Ex Parte Milligan, codified in U.S. Code as 71 U.S. 2 (1866). Quoting Section 98 of this code:

"Therefore, anyone who declares the suspension of constitutionally guaranteed rights (which we are heir to and which we claim via expatriation from any conferred status as federal citizens) and attempts to enforce such suspension within the 50 independent, sovereign, continental United States of America, is making war against our constitution(s), and, therefore, we the people. They violate their constitutional oath and, thus, immediately forfeit their office and authority and their proclamations may be disregarded with impunity..."

By failing to acknowledge our Presentments you are ignoring our status and standing as Americans - both individually and as an Assembly. In doing so, you are guilty of Treason and attempting to do harm to Americans, two crimes we take VERY seriously. Per the above, your actions are not only suitable for immediate removal from office, but potentially execution.

Enclosed are Arizona Public Laws #1001, #1002, #1003, #1004 and #1005, passed unanimously by The Arizona Assembly(c). We suggest that you take these Public Laws seriously and implement them immediately, or we will continue to bill and lien both you and your parent corporations for your crimes against us. Should you wish to discuss these laws and the potential to work together amicably, please contact Dennis Knill, Chair of the Arizona Assembly within 2 days of receipt of this Notice at (928)

821-0785. If you fail to contact The Arizona Assembly(c) within 2 days of this Notice, you acquiesce to everything in the enclosed True Bill notices.

**Arizona Public Notice
An Open Letter to Governor Hobbs**

April 19, 2024

Governor Katie Hobbs

1700 Washington Street, 6th Floor

Phoenix, Arizona 85007-2834

Governor Hobbs,

We, the People of Arizona, read what happened to the Texas National Guard several weeks ago, how the guardsmen were rushed and beaten by a crowd of out-of-control would-be immigrants, illegal aliens, and newcomers.

We read how our fellow Texas Guardsmen were standing there with rifles in their hands and no bullets to defend themselves.

We read how a "Federal" Judge pardoned all these rioters and just let them go, after they invaded our country and assaulted our guardsmen.

The same thing can happen on our Arizona border. The guardsmen, Governor, are ours, not yours. Ours! Paid with State Trust money.

This shameful display of complete government ineptitude and dereliction is embarrassing, but it is also a travesty of justice that we will not soon forget.

You have an Arizona Assembly. Not a wannabe State Assembly "representing" a State Trust, but an actual Assembly of qualified, declared, recorded, and published Arizonians who have the provenance and standing to conduct an American Common Law State Court and Arizona State Citizens competent as the Principals owed every jot of The Constitution of the United States of America.

If what happened in Texas were to happen here in Arizona, what in the name of God would you do? Would you take such invaders to a political hack who is working as a Hired Jurist for a

British Crown foreign corporation so he could set them free? He has no power here. He has no jurisdiction related to this kind of issue. He doesn't even have an Oath of Office and he probably didn't even register as a foreign agent with the Secretary of State as prescribed by your corporate law. He has no more jurisdiction over illegal aliens than the moon is made of green cheese, but we, the Arizona Assembly, do.

Have you forgotten who you are, who you are responsible to, who you answer to, who you work for, who you are supposed to take an oath of office to, and have you registered with the Secretary of State as a foreign agent?

You owe it to us, the Federation of States, and to the People of Arizona to: (1) Arm our guardsmen; you may not be able to give them permission to use deadly force in their own defense, **but we do**, and we count, because those are our National Guardsmen and we hold superior concurrent General Jurisdiction, and (2) Bring things like this that impact the health and welfare of the living people to the lawful Court of the living people.

Don't argue about how many angels on the head of a pin in Municipal Court, and don't waste any time playing Toady to a British Territorial Suit whose only jurisdiction amounts to issues in Admiralty and contract law.

Forget about their corporate contract signed by George W. Bush, the North American Union Treaty, agreeing to open and erase their borders.

Your State-of-State Corporation called the State of Arizona, Inc., as a legal fiction, has no physical borders in Arizona or anywhere else outside the District of Columbia.

We, the Arizona Assembly, have physical borders in Arizona, and you have a contract with us called The Constitution of the United States of America a British Territorial Subcontractor and Incorporated Entity, (but an Entity and Professed Successor nonetheless) that requires you, as an Officer of the American Government, Inc., to close our physical borders tighter than a virgin's thighs on Prom night.

For God's sake, woman, wake up! Close the Border! Stop the invasion!

It absolutely does not matter what You, Joe Biden or any "Federal" Judge without an Oath of Office says about it. What matters is your contract with the People of Arizona who are present here and now and demanding your good faith service.

We have come home, the Americans, who were mischaracterized, denigrated to the level of "Humans" and then human trafficked out to sea in Breach of Trust and in violation of your service contracts. Yes, we came home.

And now we are here, no longer lost at sea, no longer absent, presumed dead -- no, Governor Hobbs, we are here, present and accounted for.

We have all the authority we need and we can give you all the authority you need, to kick every Municipal Government Employee back to where they belong, in the District of Columbia, including Joe Biden. So, close the border!

We can arrest and put any illegal aliens in jail where they belong and transport them back to their countries of origin, and charge back every dime that their presence has cost us, plus damages, to the Foreign Principals responsible for this mess.

We, on our Federation level, can order the arrest and questioning of George W. Bush and ask his exact understanding and intent when he signed the so-called North American Union Treaty -- which can only be a "Sea Treaty" having nothing to do with our land and soil -- and if he gives the wrong answer, we have every right and authority on God's green earth to hang him in the closest public square for Treason, Breach of Trust, violation of his Service Contract, and a whole lot more.

That's the Public Law. The Law of the Land. You may have heard about it. Your foreign-taught lawyers, members of the British Crown Corporation called the BAR Association, may even have a glimmer. We suggest you dust off a copy of the Law of the Land. There's probably a copy sitting in your office.

You know why it's called The Law of the Land? Because it's the Rule Book for you British Territorial Sailors coming onto our soil to provide us with "essential government services." It's not called the "Law of the Land" from our perspective, Governor. It's called that from the perspective of British Territorials coming ashore.

Now, if your British Crown Corporation now operating deceitfully as "the American Government, Inc." is too timid to do its job, we can hire someone else or do the work ourselves. You *Federales* can all quit and go home now so far as we are concerned.

We never appointed any of you to act as our Custodians or even as the Executors of our presumed-to-exist Foreign Estates, but we are here to tell you now, that your "performance" and the performance owed to us by all the Governors in Arizona, New Mexico, Texas, Florida, California, and any other bordering state where illegals can cross, is distinctly lacking.

You're all just a gross embarrassment to us; you seem to not have the willingness to do your job, Governor Hobbs. You have to get past the ignorance that keeps your hands tied.

Using our Guardsmen as potential laughing stocks and punching bags, giving them fancy guns to use as super-expensive billy clubs, and taking illegal alien criminals to the wrong Court is just not acceptable.

They aren't Municipal citizens and we're not "rebels" or "insurrectionists." We're your long-lost Employers and we are pissed!

Get a clue, Governor Hobbs, and tell your jackdaw attorneys to get one, too.

That "Federal Judge" in Texas, Just as any federal judge in Arizona, has no more jurisdiction over illegal aliens than the Man in the Moon.

We are not deceived nor are we amused.

It's time for the British Crown to walk the talk or walk the gangplank. One of the two. Give our greetings to the Lord Mayor of the Inner City of London and to the Pope.

Public Corrective Notice and Demand

The International Court of Justice — RF 648 767 835 US

Governor Katie Hobbs — RF 388 087 532 US

The Arizona Judicial Council — RF 648 767 800 US

The Arizona State Troopers — RF 388 087 577 US

"Arizona" defined as a State Trust was brought into a Union of similarly constructed State Trusts administered by foreign Territorial Confederate "States" — which are States-of-States business organizations, doing business as the State of Alaska, State of Ohio, and so forth.

This form of "Arizona" was conceived as an inchoate "State" and it was established under the authority of The Constitution of the United States of America, Article IV, Section 3, Clause 2, which deals with — Withholding of Lands- Disposal of Lands, not under the authority of The Constitution of the United States of America, Article IV, Section 3, Clause 1 which provides for the creation of actual physically-defined states and States of the Union.

In this way, via the use of deceptive terms of art, the People of Arizona were deluded and defrauded and encouraged to think that they were in possession of their lawful State of the Union, Arizona, which everyone understood to be the physically defined state, when in fact a bait and switch fraud was involved.

According to the Arizona Statehood Act all land in this version of "Arizona" was transferred via Land Patents from the United States, Inc. to "Arizona" that is, the trust structure incorporated by the U.S. Congress and administered by their very own foreign State of Arizona business organization.

Most Arizonans were never told that land is an international jurisdiction and refers to the subsoil, minerals and aquifers that exist below the top six inches of soil, and thus, they never actually received the land and soil that is owed to them. It was commandeered by foreign commercial corporations and attorneys acting in Breach of Trust.

So now you can see that Arizona defined as a trust is not an actual state with any sovereign powers of Nations; it exists without any actual possession of the land and soil by the Arizonan people— and is a "State" in a completely different sense and existing in a completely different jurisdiction than the original thirteen (13) states of the Union, and it was never constructed to be, nor enabled to be, a true State of the Union.

Those who passed off this State Trust as a State of the Union, and who artificially contrived to keep control and ownership of the land of Arizona — only played lip-service to the ownership interests of the people who live here. They did this purposefully and with malice aforethought as a complex constructive fraud which preyed upon the natural assumptions and popular language conventions of the average people, who signed on to this scheme without benefit of full disclosure and without realizing that they were being used as both the victims and the accessories of a crime.

The courts of this version of "Arizona" are corporate tribunals operating in international jurisdiction. The so-called Constitution of the State of Arizona is merely a debt agreement and service contract between the Arizona State Trust and the foreign privately-owned Territorial business corporation administering it.

These courts are, by definition, incompetent to address people standing under the Public Law and the actual Federal Constitution, so they have deliberately falsified our identities and registered us as foreign "Persons" — both Territorial U.S. Citizens and Municipal citizens of the United States. They have unlawfully, illegally, and immorally subjected us to the sea-going Constitution of the State of Arizona under conditions of deliberate constructive fraud, and they have subjected average Arizonians to the private legislative statutes of the incorporated State of Arizona, Inc.—under force, and fraud and all in Breach of Trust.

The mandate of the Constitution of the State of Arizona and the Statutes of the State of Arizona say that all Judges and Attorneys are required to obtain a State issued license to practice law before they may be admitted to the Arizona BAR Association —that is, the Arizona franchise of the Municipal United States BAR Association.

The Arizona Legislature has further mandated by State of Arizona Statute that all who are licensed to Practice Law are _ required to become Members of _ the Arizona BAR Association—including all Judges. So it is a double-ended demand. You have to have the license, and then, if you have the license, you have to have the card.

This Public Policy rendered as a "State" Statute, requires undefined persons to acquire licenses to pursue and engage in an otherwise undefined profession of common right, and then goes on to mandate that such persons also join a foreign Municipal guild, a European professional guild, and then proceeds to enforce a closed Union Shop policy in defiance of the Smith Act, the Taft-Hartley Act, and other well-known Federal Law.

No member of the Arizona Judicial Council, no member or Board Member of the Arizona BAR Association, no Judge in any Court operated by the State of Arizona and no lawyer we have ever queried has ever been able to produce any such State license or membership card to validate their compliance.

So while we agree that the legislation is pure bunk and unenforceable it is also apparent that these individuals are not in compliance with their own Public Policies. They are, in effect, lawless. Nobody has ever been able to produce any U.S. Statute-at-Large tendered by any iteration of the United States Congress serving to create a United States District Court or any Judicial District in Arizona.

"The United States District Court for the District of Arizona (in case citations, D. Ariz.) is a federal court in the Ninth Circuit. The district was established on June 20, 1910, pending Arizona statehood on February 14, 1912. The United States Attorney's Office for the District of Arizona represents the United States in civil and criminal litigation in the court.

As we all know, the Executive Branch has no ability to establish any true civilian court or related judicial authority or offices. This places the "Arizona" version of the "U.S. District Court" and the "Judicial District of Arizona" firmly in the tradition of quasi-military carpetbagger courts imposed in the South after the Civil War:

March 2, 1867 (14 Stat. 428), divided the ten Southern states into five military districts, each to be commanded by an officer not below the rank of brigadier general. Under the act the primary duties of these commanders were "to protect all persons in their rights of person and property, to suppress insurrection, disorder, and violence, and to punish, or cause to be punished, all disturbers of the public peace and criminals." The "United States District Court" in "Arizona" is thus shown to be a military tribunal established under Article 1, Section 8, Clause 9 of The Constitution of the United States of America, established under the False Presumption that there are no competent civilian courts here, also subject to the provisions of Ex Parte Milligan. There is also a reason and a logic for all this chicanery and deceit and the connection to the carpetbagger courts.

The plain fact is that our actual government has been—at least according to our detractors—"missing" since the 1860's, "presumed to be in interregnum" and "absent", because our actual States of the Union were not called back into Session after the Civil War. As a result, there was no government in Session on the land and soil jurisdiction, and no way to enroll any of the western states as actual States of the Union. The details of this deplorable dereliction of duty on the part of our British Territorial (U.S. Military) and Municipal Government (Federal Civil Service) Employees have finally been fully extracted and appropriate action has been taken to summon the States into Session.

To remove the obstacles presented by false registration of Americans as British Territorial U.S. Citizens and/or Municipal citizens of the United States, Americans from all over this country have declared and recorded their birthright political status and exercised their prerogative to assemble their State Assemblies. There are now fifty (50) State Assemblies one in each State of the Union, properly declared, operational, and moving forward.

On October 1, 2020, the State Assemblies that were formed prior to the onset of the Civil War returned a unanimous Roll Call Vote, enrolling the States that have entered Territorial Statehood during the Civil War as fully formed states and States of the Union, and making this enrollment retroactive to the date they entered Territorial Statehood. With this action the State Trusts have been dissolved and the presumed Donors of the assets contained in these trusts have exercised their prerogative to receive back those assets, including the United States Land Patents they are owed, as fully functional nation-states and the people thereof. Public Notice of these actions and the knowledgeable authority exercised in their accomplishment has been published worldwide for over ninety-five (95) days and has cured and has been permanently recorded.

Any coercive custodial interest or claim on abandonment proposed by the State of Arizona or Municipal STATE OF ARIZONA based on their prior Bad Faith and misadministration of our assets as trust properties must be set aside.

There is also a valid known reason why the so-called United States District Court in Arizona is actually operated as a Territorial United States Court and Military Tribunal. The United States Statutes-at-Large were created by the American Federal Republic Government, an instrumentality of the original Confederation formed in 1781, after 1860, the Confederation could no longer function, and neither could the Federal Republic sponsored by the Confederation. Thus, the United States District Courts formed prior to the Civil War were formed under the authority of the Statutes-at-Large, but there was no answering authority to establish new United States District Courts after the mercenary conflict ended.

So, once again, our inventive but dishonest British Territorial federal subcontractors "made something up" and benefited themselves in the process, by establishing phony courts that appear to be the United States District Courts, but which are in fact Territorial United States Courts operated as quasi-military tribunals on our land and soil. These courts enforce foreign statutory laws and Federal Codes on Arizonans in contravention of all three Federal Constitutions. They impersonate Arizonans and Americans in general as foreign "persons" voluntarily and knowingly operating as U.S. Citizens and/or citizens of the United States, when this is self-evidently not true, not disclosed, and based on criminal dereliction of duty and fraud in pursuit of coercive power and unjust enrichment.

The carpetbagger courts created in the Southern States within the new Military Judicial Districts enacted in 1867 were designed to collect war reparations from the helpless Southerners and Municipal citizens of the United States who were punished for their support of the Southern Confederacy by being defined as Fourteenth Amendment citizens—prejudged as guilty until proven innocent, and as criminals, therefore also slaves, belonging to the surviving Federation of States and the British Territorial United States interests that fought with the North. This was all done via misapplication of military power and executed under color of law, without lawful consent, without granted authority, without disclosure to the General Public, and has continued this quiet reign of terror and injustice, plundering and pillaging, ever since. This has all been done to us by our very own misdirected public employees, many of whom have been kept as woefully ignorant as the members of the General Public.

We have awakened to find everything in disarray, as the perpetrators are trying to escape to China. The officers of these "courts" are facing court martials and international tribunals. An immediate cessation of all these unlawful, illegal, and immoral activities on our shores is required as a condition of amnesty. Let every judge and attorney consider their options and consider them well.

The most recent outrage is an attempt by so-called corporation President Joe Biden to bond land and soil assets belonging to us, the American States and People, for the benefit of his corporation and the Chinese Government. This is part of the cozy arrangement that the Offenders are trying to parley into continued predation against American assets and their illegal removal to China, together with associated money-laundering and securitization fraud by the H5BC organization and certain Malaysian banks.

The unincorporated Federation of States has been functional since 1776 and is the lawful government of this country in international jurisdiction. It is not our habit or tradition to be constantly in Session, but we are in Session now.

We exercise the contracts and treaties we hold with the Principals responsible for this unholy and wicked injustice: the Pope, the British Monarch, and the Lord Mayor of London. We do not recognize any of their copyrighted, patented, or incorporated service providers and have no contract with Joe Biden or Russell J. Gould, et alia. We consider these people — whether elected by our Employees or acting as wannabe Successors to contract — to be operating in the guise of privateers and/or inland pirates, in possession of some portion of some part of our government apparatus under conditions of deceit and usurpation. We are the Employers, and we are not pleased with the service we've received. This is business and a matter of flagrant criminal Breach of Trust. It is past time to come to terms.

All Americans are advised to declare their proper birthright political status to forestall any continuing false legal presumptions against them. They are advised to contact and populate their State Assembly and to do so immediately and in an orderly fashion. Everyone is urged to act responsibly and to assist in keeping the peace.

The International Court of Justice is asked to notify all Member States and Nations and to compel investigation and discovery related to these crimes of fraud and misrepresentation and to proceed with prosecution of those Principals and their instrumentalities and Officers responsible for this grotesque Breach of Trust and Commercial Service Contract.

Quick Start Understanding of Government Structure

A State is not a State of State.

Read the statement above as many times as necessary and think about it.

Arizona is not the same as State of Arizona.

In fact, Arizona is not the same as **The State of Arizona**, **the State of Arizona**, or **the STATE OF ARIZONA** or anything calling itself **the STATE of ARIZONA** or **ARIZONA** or.... These are all separate and distinctly different entities.

Arizona is "corporate" but unincorporated — meaning that it has a **name** and a **physical definition**; but is not "incorporated" into any other country or corporation. Arizona, the actual State, stands alone. It is complete. It has well-defined physical borders and is populated by living people.

All these other things calling themselves some variation of "**State of Arizona**" are fundamentally different. These are called "**Inchoate states**" or "**states-of-states**" or "**incomplete states**". These States of States are various kinds of **business organizations** and they have no physical borders and no people live in them. They are all incorporated, meaning that they are part of larger, parent organizations, and to the extent that they are "**inhabited**" they are inhabited by "**persons**" not people. **Persons** are **officers** and **employees** of corporations who have **duties to perform** and who "**reside**" on a temporary basis in our actual States.

Stop a moment and think about what you have just learned.

The **people** living in **Arizona** and the **persons** working for the **State of Arizona** are not in the same political status. They aren't operating in the same **capacities**.

Just like a **State** is not a **State of State**, one of the **people** isn't a **person**. The difference is very clear-cut, yet many of us get confused and think that the State of Arizona is the same as **Arizona**, when it is not. We also assume that if you have a pulse, you are one of the people, but in fact, you may be acting in the **capacity** of a **person**, instead.

There is an "apples and oranges" difference involved — and it needs to be clearly understood. You, as one of the people born in a State of the Union, say Virginia, start your life as a Virginian. You are one of the living people of Virginia and you employ the State of Virginia (or some other State organization) to:

do business for you. However, you can, if you so choose, go to **work for the State of Virginia**, and accept **"an office of personhood"**.

Do you see how that changes the capacity in which you are acting? You went from being one of the people and an employer, to acting as a person and being an employee. In effect, you left Virginia behind and entered the State of Virginia. By doing this you subjected yourself to the private rules, codes, regulations, statutes, and policies of this business organization, which is simply in the business of providing "governmental services". In addition to accepting a paying job with a State of State, you can unwittingly enter this status if you **"volunteer"** to serve the State of State as a **voter**, a **tax collector** known as a "withholding agent", a **juror**, or in any similar capacity.

Finally, there are two other ways you can leave your home in Virginia (or Arizona or one of the other States of the Union—) and find yourself in the "foreign territory" of a State of State:

You can willingly and knowingly seek **welfare benefits** from the State of State, or you can be turned over to the State of State as a **"ward of the state"** — that is, an "incompetent" of some kind — an abandoned child, a pauper, a mental incompetent, or someone so physically incapacitated they can't care for themselves. Most of us have been misidentified as "wards" of State of State organizations when we were **babies** in our cradles. This has been done via **False Registration** processes that result in equally unconscionable contracts, obligating us to act as persons — **known as citizens of the State of State**.

So how do you get home to your birthright political status as one of the living people? A free man, a Virginian — living in Virginia, owed all the protections of the Law of the Land? This question will be answered, but first, we need to look a bit deeper into what these State of State business organizations really are — and who or what operates them?

Original Sovereign Jurisdiction — Government of, for, and by the people/People. Our actual government was set up during The War of Independence, between 1776 and 1781. The first instrumentality of this government was the Union of (E)states, published 4 July 1776, as a result of The Unanimous Declaration of Independence issued by the original colonies. A few months later, on September 9th of 1776, these new States joined together and created a Federation of the States of the Union doing business as The United States of America. Nearly five years later, the States additionally created a Confederation to take up some of the slack and conduct commercial business for them. All three — the Union, the Federation, and the Confederation — were set up and functional during the Revolutionary War and all three continued to function before, during, and after the Constitutions were adopted more than a decade later. Stop and think about that. It is important to understand that the **Federal Constitutions** (there are **three (3)** of them) represent the implementation of treaty agreements that were reached with King George and the Pope as part of the Peace Treaties ending The War of Independence. It is also important to understand that our Federal Constitutions, like all Constitutions,

are debt agreements based on service contracts. Someone agrees to do something and someone else agrees to pay for it.

In the case of the Federal Constitutions, the People acting as State Citizens and occupying the international land jurisdiction owed to each of the States, agreed to pay for certain enumerated services and also agreed to delegate the powers needed to perform these services to Subcontractors. There are nineteen enumerated services and nineteen enumerated "delegated Powers" granted to three (3) Federal Subcontractors. They were/are:

1. The States of America — operated by "the united States of America" [the original Confederation] under "The Constitution for the united States of America" — which were American Subcontractors, organized as States of States, doing business under names styled like this: The State of New York. This organization functioned from 1787 to 1863.
2. The British Territorial United States doing business as "the" United States of America, operating under "The Constitution of the United States of America".
3. The Municipal United States Government doing business as "the" United States, operating under "The Constitution of the United States".

Do you notice something important? Our actual and original government and its instrumentalities — the Union doing business as The United States, and the Federation doing business as The United States of America and the Confederation doing business as the States of America don't operate under any "Constitution". It's only the Federal Subcontractors that operate under Constitutions. Why? Because we don't pay ourselves in gold to mow our own lawns. So our actual government is the Union, the Federation, and the Confederation.

The Subcontractors are the American Federal, British Territorial and Papal Municipal Businesses. The American Federal Subcontractors ceased cooperative operations in 1860 (Southern States of States walked out) and the remaining Federal States of States went bankrupt in 1863 (Northern States of States). So if you took an "Oath" to protect and preserve "the" Constitution against all enemies both foreign and domestic — were you told any of this? Did you know that you were taking an "Oath" to support and defend the service contracts of the remaining foreign business interests? Were you told that you would be working for the Pope (Federal Civil Service) or the Queen (U.S. Military)? Were you told that the American Federal Subcontractors were out of business, still pending "Reconstruction"? So there was no possibility that you were working directly for the American States and People? Were you told that, ultimately, no matter which remaining Federal Subcontractor you worked for, Federal Civil Service or U.S. Military, you'd be working for the Pope?

The Pope directly controls the **Municipal United States Government** and the **Federal Civil Service**, and indirectly controls the **U.S. Military** because the Queen operates as his Overseer of Commonwealth

— that is, British Territorial operations. At any time, was it ever your understanding that you were working for the Pope or the British Monarch acting as his Overseer? Read that — **"the" United States refers to the Pope's Municipal Government and "the" United States of America refers to the Pope's Territorial/Commonwealth Government under the oversight of the British Monarch.**

If you are like most Americans, you thought that "the" United States of America was the same as The United States of America — but one is a foreign British Territorial Subcontractor at the Federal level, and the other is the Federation of States. Actual States. Exactly which one of these two entities did you mean to give your oath to? The actual Government of the American States and People, or a foreign Federal Subcontractor? And if you were never given full disclosure about any of this, why would you feel obligated to an Oath that was made under conditions of deceit and non-disclosure? What possible legal or lawful obligation could ever be created by such an oath, purloined under conditions of non-disclosure?

States of States

We left off the discussion about the States and the States of States with the question of what are these business organizations? Who or what is running them? We are now prepared to answer that question — there are two "States of States" organizations in each State of the Union. One is a **British Territorial State of State** organization operating under names styled like this: **"the" State of New Hampshire**. The other is a **Municipal STATE OF STATE** organization operating under names styled like this: **"the" STATE OF NEW HAMPSHIRE**. There are not supposed to be any Municipal STATES OF STATES operating within the borders of our actual States of the Union. In fact, there should be no "Municipalities" anywhere on our soil and no Municipal Corporations, either. The **Constitution of the United States** only provides for one Municipality — **the Municipality of Washington, DC** — and that is limited to the "one mile square" located within the Boundary Stones designated for it within the District of Columbia. The Territorial States of States are, strictly speaking, not allowed either.

They came in and usurped into the vacuum of power created when the American States of States ceased functioning — as an "emergency measure". They've kept the "emergency" going ever since, and never bothered to explain any of this to the American Public. So we've had Cuckoo Bird British Territorial States of States operating in our States, and these organizations have operated in collusion with the Municipal STATES OF STATES to rob the actual States and people blind. **They formalized their collaboration via "The Declaration of Interdependence of the Governments in The United States", signed in 1937.** The clear duty that these Federal Subcontractors owed to us was to fully disclose the situation at the end of the Civil War and to assist us in Good Faith to restore our lawful government to full form and function. Instead, they left our actual flag faced down, struck, in the Capitol Rotunda, in the Senate Chambers and the House Chambers, and did nothing to correct.

They couldn't even take care of the Title IV Flag we allowed them to use when exercising our "Delegated Powers" — they let a pirate like Russell J Gould, walk into the capitol and claim it as if it were his property — instead of property belonging to us, The United States of America, the States of the Union, the American States and People. Hordes of foreign political lobbyists have infested our Capitol and used

our Public Resources, treasuries and assets as if we were gone on an endless holiday, "lost at sea", and our erstwhile Allies, the Governments of Great Britain and Westminster fed on our substance, plundered and pillaged our States, and our people for generations. These are the facts. And if you are Americans, it's time to take stock of them. Please note that the deceptions involved are all similar forms of deceit.

We have been led to mistake States of States for States, Territorial States of States for Confederate States of States, foreign Municipal STATES OF STATES for businesses that have a right to be on our soil, people for persons, "the" United States of America for The United States of America, and even "the" United States of America, Incorporated, as The United States of America. No wonder people are confused. No wonder this country has been kept at constant war. No wonder that our institutions and our social fabric have decayed. No wonder that generations of "public school" children have been fed pabulum and false assumptions. No wonder that our country has declined in absolutely every category of measurable achievement. We can't tell our butt from buttercups without extreme effort on our own parts to delve out our own well-observed history and map it out as we have just mapped it out for you. And it all begins with the simple observation that **a State is not a State of State.**

Right now, the perpetrators of these confusions have been thrown into havoc, because their constructive frauds and deceptions and embezzlements have been discovered and brought forward. Both "the" United States doing business as "the" UNITED STATES, INC., and "the" United States of America, doing business as "the" United States of America, Inc., have been bankrupted for cause and criminality. Both remaining Federal Subcontractors are at least temporarily out of pocket, out of business, scrabbling around to create some new deceptively named corporation they can throw into the gap and hope to continue the same old game. In Scotland, they recently created a new version of THE UNITED STATES OF AMERICA (INC.) and we have already complained about their continuing abuse of our name and trademark.

By Operation of Law, when a power delegated to another Principal or Party can no longer be exercised by that Principal or Party due to their incompetence — as in bankruptcy incompetence — the delegated power returns back to the Delegating Power. In this case, the Delegated Powers have returned to The United States of America. If you made an Oath to serve under those Delegated (and Abused) Powers, your Oath has returned to us, also.

The Arizona Assembly
c/o Post Office Box 20991
Sedona, Arizona (86341)

Dear Sheriff,

It has come to our attention that although you have been elected in what appears to be public elections, that is not the case. You have been elected in private corporation elections related to an incorporated "County" franchise of a federal corporation ---and we have all been presumed to be shareholders voting you a proxy to act in our behalf, which is quite a different matter than a public office in our government, and which results in you serving as a private Law Enforcement Officer, contrary to our intention, which is that you serve as an elected Public Peacekeeping Official.

Our government is not bankrupt and is not set aside. Whatever private "gift" shareholder status the corporate County franchise has bestowed on us enabling us to vote in their private elections has been undisclosed and any presumptions related to it have also been undisclosed. We accept all gifts and waive all benefits and we give Notice that we are not voluntary shareholders nor voluntary participants in any of this sleight-of-hand attempting to unlawfully convert our Public Offices into Private Security Jobs. This situation also gives rise to potential conflicts of interest. We have been unjustifiably "presumed upon" and misidentified as federal citizens when in fact we are Americans and nothing else. We are owed all the guarantees and protections afforded our States under the provisions of the Federal Constitutions and you may not presume otherwise.

As an employee of a foreign corporation merely in the business of providing governmental services the objectives and profit motives of the "County" corporation may be at odds with the Public Good, the will of the people of this county, and even the Public Law --- and this puts you in a difficult position as the employee of the private corporation acting as middleman and, ultimately, the people of this county.

When push comes to shove, and the corporation tells you to violate our Constitutional rights and international law, where do you stand? A seminal US Supreme Court case, *Mack and Prinz v. USA, Inc.* addresses this dilemma. The Court made it clear that you may serve your conscience and may enforce the Public Law including the Constitutions like any other American, but it fell short of mandating that you do so. Upholding the Public Law is therefore left in limbo so far as Law Enforcement Officers are concerned -- subject to your discretion -- and the actual job of upholding the Public Law is left to average Americans.

We are people of the soil and land, owed the Public Law, including The Law of the Land. From the military, we are owed The Law of Peace, AR 27 1-161-1. However, realistically, continued failure of the LEO's and the military to uphold the Public Law and failure to protect our "persons" and respect the Constitutions, may result in unrest and

even insurrection; it may also lead to what appears to you to be vigilante action, when in fact it is only Americans doing their duty to uphold the Public Law. If things continue to devolve in this fashion, with LEO's being told by the self-interested middleman corporations to stand down or arrest people under false presumptions, and the people in desperation are left to enforce the Public Law all by themselves, what do you intend to do? Exercise your right to enforce the Constitutions? Or violate our rights and guarantees at the behest of the middleman corporation that signs your paycheck "for" us?

Homes in this county are being confiscated without lawful Due Process, under false Legal Presumptions, and under Color of Law. People are being deliberately misidentified and mischaracterized as franchisees of federal corporations. Trillions of dollars are being siphoned out of this country by foreign corporations every year, and we have discovered exactly how they are doing it. Ironically, though you actually still work for us, too many Sheriffs in this country have forgotten that fact and the local "County" corporations have misdirected them so that they are allowing themselves and their Offices and the Public Trust to be abused. Many LEO's have unwittingly or purposefully become accomplices to massive and coercive constructive commercial fraud against the people of this country.

This is your Notice of the facts and also your Notice of Liability should you misidentify us as corporate government franchises, members of any religious cult, members of any Commonwealth, federal employees, or federal dependents. As a private security officer, a LEO, you are 100% commercially liable for any damage done to us under International law. You are also responsible for any trespass upon our private property, any presumption that our private property is public property, and any arrest of our persons under false legal presumptions. Although you may choose whether or not you will enforce the Public Law owed to the people of this country, including the enforcement of our constitutional guarantees, we retain our identity as American State Nationals and American State Citizens. This is your Notice of the Facts. As Americans we are assembling our States of the Union and preparing to hold our Public Elections for the first time in over a century. Those elected in our elections will be American Public Peacekeeping Officials – the job we thought we hired you to do, and they will be fully empowered and tasked to enforce the Public Law. We expect you to respect the authority of the Public Officials thus elected and to work with them to ensure justice and peace for the people of this county. We invite you to join the discussion and wish you to know that we are peaceful non-combatant civilians, part of the political body of the Federation Compact States of the Union doing business as The United States of America since September 9, 1776. We have not been involved in any war since the close of hostilities in the War of 1812. We are being forced to organize and hold elections in light of continued misbehavior and malfeasance by federal officials and federal corporations and their employees in violation of their obligations to the people of this country. These offenses include impersonating us and practicing barratry against us, hypothecating debt against our assets without our knowing consent, trespass upon our private property, secretive and unlawful conversion of our Public Offices, semantic

deceit, constructive fraud, infringement of our Unregistered Trademarks, and deliberate mis-characterization of our persons as Federal Citizens.

We have no obligation to act as Federal Citizens and have chosen not to accept any such obligations. All gift franchises operated in our NAMES have been returned to the Secretary of the Treasury and otherwise expatriated, re-flagged, and properly and permanently domiciled on the land and soil of our State. Any such gift franchises are under our private management and now stand under the Public Law of our State — not the statutory law of any Territorial State of State or Municipal STATE OF STATE organization. As such, they are outside your jurisdiction as a LEO and not subject to federal presumptions. As we are law-abiding and knowledgeable people this information should not be taken as any kind of threat to you or to your "County" corporation; rather, it is offered as necessary discussion and orientation so that you know what is going on and why. We invite you to faithfully enforce the Public Law and the Constitutions and to use your discretion as a loyal American would; failing that, we invite you to observe the limitations of your private corporate office and post Notice of your liability and the liability of other "County" employees and hereby also issue Mandatory Notice as required by the Foreign Sovereign Immunities Act, to not trespass upon our persons and our private property. Please put us on your "Do Not Detain List" and please notify the DOD of their obligation to provide the correct ID to you and to us.

Submitted respectfully,
